

Mr. Mark Gordon, Chairman

Wyoming Environmental Quality Council

I own and operate Gillette Analytical Services LLC.

I have read the petition to Amend Wyoming Water Quality Rule, Chapter 2 Appendix H. What I can see of it shutting down the Discharge of CBM Water will cause the loss of Natural gas in all Wyoming Counties. To me that mean's the loss of Jobs, State taxes, and the growth in Wyoming.

Thanks,

Jamey E. Rehm

Johnny Pewey
