Re: Opposition to Chapter 1, Section 20, Appendix H of the "Ag Use Protection Policy"

Dear Mr. Gordon

Please do not let Chapter 1, Section 20, Appendix H of the "Ag Use Protection Policy" pass your approval. The CBM industry has been working hard to comply with all the rules and policies set by WYEQC and the WYDEQ. This policy not only puts tighter restrictions on CBM water discharges but it also effects the rights of ranchers and landowners from discharging water on their own property. Please do not let this policy become a rule. We think that it should be up to the DEQ's discretion and let each decision be site specific.

Sincerely,

A handwritten signature in black ink, appearing to read "DB", written over a white background.
