MARK Gordon, Chairman

I am a concerned resident of Campbell County  
for 37 years, making a living in the oilfield and coal  
Bed Methane Industry.

I oppose the petition or rulemaking - WDEQ -  
"Ag. use protection policy" on water discharge  
permits before the E.Q.C. (Chapter 1, Section 20, Appendix  
H) and oppose the rulemaking - Powder River Basin Resource  
Council etc. WDEQ Chapter 2

Is this rule were to admit water discharge  
on the surface, that livestock & wild life drink,  
and be lost to injection, without being of benefit to anyone.  
The C.B.M. Reservoir, by my land, has been stocked with  
Treat and are doing well.

concerned, and thank you,  
L. Dean Boers
