Cheyenne, WY 82002**

Thank you for accepting our comments regarding the Powder River Basin Resource Council petition which requires CBM discharge water be put to beneficial use. We fully support the petition and ask that you accept the petition to help protect Wyoming's land and water. Our land and water should not be thought of as being infinite and great care should be taken to protect it so that it can sustain us. We cannot exist without them.

Sincerely,

Tom McCoy
