Gentlemen:

We wish to register our support for the petition filed by the members of The Powder River Basin Resource Council and urge the members of the Environmental Quality Council, to accept and consider this document.

There is nothing more valuable to Wyoming than our water and the wanton waste of this resource is a crime against all the people of Wyoming. Please insist that this water must be used for beneficial use only and never wasted.

Thank you for your consideration.

Leland J. Turner

Karen L. Turner
