Re: Follow-up to Requests for Information Pursuant to Section 308 of the Clean Water Act

Dear Mr. Madden:

As you are aware, by letters dated April 12, 2012, and November 13, 2012, the Environmental Protection Agency (EPA), pursuant to its authority under section 308 of the Clean Water Act (Act), 33 U.S.C. § 1318, directed Torrington Livestock Markets, LLC (the Company) to submit reports with specified information to the EPA every six months.

The reports that the EPA has received since issuing these information requests do not indicate that the Company has been discharging an average of 25,000 gallons per day or more of process wastewater to the City of Torrington's (City's) publicly owned treatment works (POTW). In addition, the City has informed us that the Company's discharge has not been determined to cause Interference or Pass Through (as defined in 40 C.F.R. § 403.3) in the POTW. Accordingly, the EPA is now terminating the April 12, 2012, and November 13, 2012, requests for information.

Please be advised, however, that should new information come to the attention of the EPA or the City in the future, the Company may be required to resume reporting.

If you have any questions, please contact Monia Ben-Khaled, Environmental Engineer, at 303-312-6209. Any questions from counsel should be directed to Peggy Livingston, Enforcement Attorney, at 303-312-6858.

Thank you for your attention to this matter.

Sincerely,
