Dear Council,

Jim Ruby, Executive Secretary  
Environmental Quality Council

I strongly urge you to NIX open-pit mining at Sand Creek Valley! It's destructive, polluting mess - Must not be allowed! Keep this precious, spectacular wild area pristine! You work for citizens, Not industry! Do your job - Protect Our Public waters, land, health, economy & wildlife!

Your attention to this most urgent matter would be much appreciated by all present & future generations of all species.

Thank-you,

Public  
Health  
Nurse
