Dear Ms. Waring,

Today I received by certified mail, notice of the upcoming hearing. Nowhere in the packet did I see any indication that notice was given to Golden Predator Mines, U.S., Inc. As they are possibly the largest property interest holders in the area, I would think it paramount that they be afforded notice. Reece's motion filed 06/24/2010 included as Exhibit B, a complete list of each of their claims with the book and page number of their filing in Crook County so their ownership interest has been known by the Counsel since then. Please make sure they receive timely notice.

Respectfully,

John Green
