**Subject:** Docket No. 09-1101, Crumpley et al.Citizen Petition.AQ Rulemaking

To Whom It May Concern:

I write this letter as the Mayor of Mableton Wyoming and also as a person who has worked in the Energy Service Industry for 32 years.

I encourage you to look favorably on all the Steps to Improve Air Quality Emissions that have been voluntarily taken by our local Energy Companies.

- Rocky Mountain Testers
- Greene's Energy Group
- Questar
- EnCana
- Shell
- Ultra
- ExxonMobil
- ConocoPhillips

Our company is working on a daily basis, with these great companies and many smaller independent companies.

We see the hard work and money voluntarily spent to improve our environment and air quality.

The Town of Marbleton and The State of Wyoming has always been able to count on the energy industry to continue to keep Wyoming one of the bright spots for working toward energy independence and low unemployment numbers.

The Energy Industry has always been a good neighbor and continues to go on and above for our great nation.

The Oil and Natural Gas companies are made up of family and community minded individuals.

We are some of the best stewards of our land. This is a group of people to whom I am proud to be a part of; we work diligently to insure a great future for our children and grandchildren.

We are borrowing this earth from our grandchildren and would like to leave it as great as or greater than when we found it. We are achieving this goal voluntarily.

Please focus on the positives, cooperation and communication is Key to improvement, not mandates.

Regards,

Jim Robinson Sr.  
Mayor of Marbleton Wyoming
