Pre-Hearing telephone ConferenceFrom: Judith Bush ph / fax 307-283-2835 please phone before faxing and leave  
message if no one is homedate: June 27, 2010  
No. pgs 1

Dear Mr. Searle, Mr. Ruby and Ms. Waring,

I will be available to participate in the pre-hearing conference scheduled to take place on Tuesday, August 3, 2010 at 9:00 am and will be reachable at the following telephone number.

**307-283-2739**

The July 20, 2010 Order does not contain a phone number to call in case of difficulty accessing the conference call. It also does not contain (if one is necessary) a personal code number for accessing the conference call. Could you please fax this information to me.

Les Turgeon mentioned to me in passing that the pre-hearing conference had been scheduled after having seen this information posted on the EQC web site. I waited several more days to receive the Order by mail before replying. Please note that at this time I have not received the Order which was mailed to me on July 20, 2010. Would you please check to confirm that this letter was posted.

I do not have internet where I am staying (or at my home in Ontario). I access the EQC web pages periodically either on a friend's computer or at the library. It is fortunate that Les Turgeon mentioned the pre-hearing conference to me, since he assumed that I was already aware of when it would be taking place. Along the same line, please note that e-mail is not a dependable means of communication to reach me unless I also receive notification, either by phone, fax or mail that the e-mail has been sent. I am concerned that failure to receive this Order could have resulted in my dismissal from this case.

Yours truly,

  
Judith Bush

P.S. The July 20, 2010 EQC Order states that it concerns AQD No AP 9645 and AQD No. MD-9646. I believe this is incorrect. AP 9645 was for a AQD Mining / Quarry Operations Non-Coal Permit. MD 9645 is the subsequent permit resulting from this application. To my knowledge, there was no accompanying application for a Crushing / Screening Operations Permit (which would have been consecutively numbered, had such an application been submitted along with Ap 9645).
