From: Residents of South West Riverton, WY

Subj: Protesting 2M Construction's application for a small mining permit

Attn: Rick Chancellor

We are protesting the application of 2M construction for a small mining permit located in section 33, T1N, R4E, WRM, Fremont Co. WY; beginning operation May 2007 through

The most obvious environmental impact from aggregate, stone, and industrial mineral mine is degraded air quality, and associated health effects, resulting from airborne emissions from both stack and the disturbed areas at the mine.

Below is a partial list of the potential cumulative impacts from the development of a sand and gravel mine:

- 1. Dust and diesel fumes generated on the haul road to and from the mine.
- 2. Fugitive dust blowing from the uncovered dump trucks.
- 3. Fugitive dust from crusher operations.
- 4. Fugitive dust from piles of sand and gravel at the construction site.
- 5. Increased traffic with a concomitant increase in air pollution from more vehicles (highways and rural roads) and more disturbed land.
- 6. Public nuisance: The mine operation is emitting dust that disturbs neighbors. Nearby homes are covered with a fine layer of dust from the mine. If they were to operate at night they would make enough noise to disturb neighbors as far as a mile away. The combination of bright lights to aid night operations, loud noises from crushers and equipment would create a public nuisance for those people unfortunate enough to live near this operation.

A large majority of the people living in close proximity to the mine are senior citizens and already suffer from a myriad of health problems. There is a soccor field in close proximity to the mining operation that the entire city of Riverton utilizes for the children. The resultant air pollution from the mine, impacts the health and welfare of not just the neighborhood but the entire town.

Concerned neighborhood residents

As the owner of these lots that are adjacent to the proposed gravel pit expansion, I must oppose it. This area is by far predominantly consisting of senior citizens in various stages of health. Some are on oxygen, many will be. I've tried very hard to make it a nice neighborhood. The disturbance caused by a gravel pit has already caused very dusty conditions onto and into many homes. Remember these homes are absolutely bulls-eyed downwind of this expansion. It will make a bad situation even worse as far as quality of life for many, many people.

Sincerely,

Doug Stanbury

Riverbend Development

Petition against 2M Constructions mining pit

RECEIVED
APR 2 4 2007

We the undersigned residents of the City of Riverton request that the small mining permit for 2M Construction to operate a mining pit of sand and gravel located in Section 33, T1N, R4E, WRM, Fremont County, Wyoming be denied.
