Terri A. Lorenzon, Director
Environmental Quality Council

Protests must be received at the above location by close of business May 3, 2007.

We the undersigned strongly protest the small mining permit requested by 2-M Construction for the mining of sand and gravel to be located in Section 33, T1N, R4E, WRM, of Fremont County, Wyoming. The area is located approximately ½ mile south of the intersection of Major Avenue and Riverview Road. Such operations would begin May 2007 and is estimated to continue until 2017.

The proposed expansion of mining which is already occurring would increase the current already unacceptable level of dust, noise, and truck traffic! The location of this proposed mining would negatively impact both the quality of life and re sale value for the residents of the numerous homes located in close proximity to this mining!

Again we strongly protest mining in this location!
