WATER QUALITY DIVISION

John V. Corra, Director
Wyoming Dept. of Environmental Quality
122 West 25th Street
Cheyenne, WY 82002

Dear Mr. Corra; This letter is to notify you that a lawsuit ^{MINING} against you personally, Mr. McKenzie personally, and any other DEQ parties involved in producing such NOV and Order 4643-10, which is the culmination of forty years of infringement of the State of Wyoming on my personal property rights at the Ferris-Haggerty Mine. The patented federal mining claims conveyed the right to mine and sell mined products, which you have infringed upon illegally through a variety of questionable "environmental regulations" which require bonds of large amounts and fines of huge, and impose impossibly obtainable "water quality discharge standards", that the State itself could not reach after spending six years and \$5million on the project in a complete waste of taxpayer funds.

You are advised herewith to not conduct any reclamation activities whatsoever on the Ferris-Haggerty Mine area, comprising the Rudefeha, Rudefeha East Extension, Rudefeha West Extension, Jordan and Doyle patented mining claims in Section 16, Township 14 North, Range 86 West, 6th PM, Carbon County, Wyoming.

Be advised herewith that you, nor any contractors employed by you are ^{not} to physically enter the above property for any reason, and specifically not to touch any personal property of mine located thereon, including barrels of fuel, hydraulic oil, mine spikes, or mining equipment of any kind.

Your letters and actions lead me to believe that you have entered into a conspiracy together with the BLM and various Colorado agencies that comprise the so-called "Justice System", which includes several public entities and 24 individuals, all of which I am suing for a variety of violations of my rights in a Civil Action for damages, and the State of Wyoming and all parties within the DEQ involved in any manner in attempting to confiscate my mining property in Wyoming are hereby included as co-defendants in that lawsuit. You are further advised to not advertize for bids for any water quality, ^{studies} mine reclamation, portal sealing, or building removal on the above property.

I have spent forty years trying diligently to develop the Ferris-Haggerty Mine, and the actions of the State of Wyoming have prevented that. I am presently at a disadvantage as far as doing any work at the mine, but I intend to put it into production in a few years.

Sincerely, *Terence J. Hankins* 6/20/2010
