McMurry Ready Mix

WY Dept of Environmental Quality
Mark Moxley, LQD District 2 Supervisor
510 Meadowview Drive
Lander, WY 82520

Dear Mr. Moxley,

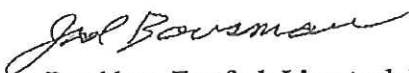

McMurry Ready Mix presently has a lease for a gravel operation on lands owned by Eastfork Livestock Inc.

I have become aware of a discussion concerning whether or not a road built by McMurry Ready Mix from their gravel operation across lands owned by Eastfork Livestock to access another gravel pit operated by the WY Dept of Transportation should be considered part of the McMurry 10 acre permit.

I am aware that McMurry Ready Mix built this road as a means to reduce the haul distance in conjunction with a job they had with the WY Dept of Transportation and also with my permission and support. I had asked that the road be left in place for future jobs coming out of the WYDOT pit and also as a benefit to my ranching operation. McMurry Ready Mix not only left the road in place but also extended the road from the WYDOT pit to the Mathis Lane County Road so future WYDOT jobs would be able to take advantage of the shortest haul distance depending of where their next job occurs. This extension is also a benefit to my ranching operation. McMurry Ready Mix is not using this road as part of their operation and this road will not be used commercially until the next job occurs from the WYDOT pit and then only if the haul distance is shorter depending of the location of the job. On that basis, I would request that this piece of road not be considered as part of the 10 acre permit for McMurry Ready Mix.

I hope this clarifies the situation and if necessary, I would be glad to tour the road with you to discuss further. Thank You

Joel Bousman

President, Eastfork Livestock Inc.
