(Page 1 of 7)

Permit Area Description

This appendix "C" represents the location of lands by legal subdivision, section, township, range, county and municipal corporation, if any, (W.S. 35-11-406(a),(vi)) and the number of acres in each description. No mining activity may take place on land for which there is not in effect a valid mining permit (W.S. 35-11-405). To include additional lands within a permit area, it is necessary to amend the permit (W.S. 35-11-406,(a),(xii)), so care should be taken to include all lands necessary to the mining and reclamation operation as defined in W.S. 35-11-103, (e),(viii). All acreage figures should be obtained from official survey documents or recent surveys if available. An original U.S.G.S. topographic map with the permit area clearly outlined should accompany each permit application. (See Plate [C-1](#))
