Re: Croell Redi-Mix, Inc. Mining Permit Request for the Shell Creek Pit in Sections 15, 21 and 22, T52N, R83W, 6th P.M., Johnson County, Wyoming

Ladies/Gentlemen:

The purpose of this letter is to register our protest to the requested mining permit for the Shell Creek Pit made by Croell Redi-Mix, Inc. of Sundance, Wyoming. This proposed pit is near our property and the proposed haul road will go through our property. The dust and traffic from the proposed pit presents dangers to everyone along the haul road. We request that the request for a permit for the Shell Creek Pit be denied. The requested permit will devalue literally hundreds of acres of land in the immediate area; will present an intolerable danger to people and livestock living in the area; and will significantly decrease the quality of life in the area. We respectfully request that the permit be denied.

Very truly yours,

Chuck Evitt

Jody Evitt
