**POWDER RIVER BASIN RESOURCE COUNCIL’S SUPPLEMENTAL LIST OF
EXHIBITS**

The Powder River Basin Resource Council (“PRBRC” or “Resource Council”) hereby designates and respectfully submits the following supplemental list of exhibits. All but two of these exhibits were included in the Wyoming Department of Environmental Quality’s (“DEQ”) production of documents during the discovery process for this proceeding. Since the discovery production deadline was November 11 – 5 days after the deadline to designate exhibits under the scheduling order for this proceeding – the Resource Council was unable to include them in its initial designation of exhibits. Exhibit 15 was only discovered during the preparation process for this hearing and therefore was also unable to be included in the Resource Council’s initial designation of exhibits. Exhibit 22 is being included after the original designation of exhibits deadline to ensure that the Resource Council is providing the Council with the most accurate and up-to-date information on the status of oil and gas wells in the area.
