Terri A. Lorenzon, Director
Environmental Quality Council

SUBJECT: Protect Adobe Town

DATE: October 11, 2007 04:35 PM

To Whom It May Concern:

I urge the State of Wyoming to recognize and designate the Adobe Town area as Very Rare or Uncommon, and to protect the historical, archaeological, and wildlife value of this land for future generations.

With all the wilderness that is irreplaceably destroyed by mining, drilling, and development every year, it is more important than ever to preserve our heritage for ourselves, our children, and for generations to come, and to protect the wildlife that depend on these lands for survival. The beauty and recreational value of open space that characterizes the West can never be replaced.

Sincerely,

Ellen Schousboe
