Terri A. Lorenzon, Director
Environmental Quality Council

Dear EQC

Thank you for your interest in
preserving Adobe Town. I write
to support designating Adobe Town
as very rare and uncommon. Both.

It has been important to people for 12,000
years. We need not hastily ruin the
experience in extracting unrenewable resources.
It is critical to wildlife corridors, has
much for us yet to learn in study, and
has tremendous enduring scenic beauty.

Please support state protections for Adobe Town
