Terri A. Lorenzon, Director
Environmental Quality Council

To whom it May Concern:

I am requesting that you give
the designation of "Very Rare or Uncommon"
to Adobe Town because it exemplifies
all of those qualities which go into
such a designation: Historical, pre-
historical or archaeological value; wild life
Value; Geologic Value; Scenic Value.

As has been documented over and over,
this site is unique and world class and
must in all good conscience be pre-
served in its current state.

Key unprotected areas outside the Wilderness
Study area include: The Hay stacks, The Willow

Creek Rim and Badlands, the Flats at
the Base of the Skull Creek Rim, and
Powder Rim -

Please listen to the comments of
those in Wyoming who have asked that
this unique area be preserved.

Thank you -

Sincerely,
Katey Manning, Ph.D.
