ADDENDUM TO PETITION TO DESIGNATE SAND CREEK AS VERY RARE OR UNCOMMON

Dear Mr Ruby:

In the legal description of the area petitioned for designation as Very Rare or Uncommon pursuant to the Environmental Quality Act, legal descriptions are to be read as follows. Half-sections or other half divisions of land are explicitly spelled out (e.g., Section 28 E $\frac{1}{2}$), whereas quarter sections are described implicitly (e.g., Section 28 NESW should be read "southwest quarter of the northeast quarter of Section 28").

You will find that this legal description matches the lands outlined on the map that accompanies our petition.

Respectfully yours,

Erik Molvar
