

**BEFORE THE ENVIRONMENTAL QUALITY COUNCIL**

**STATE OF WYOMING**

**FILED**

JUL 10 2009

Jim Ruby, Executive Secretary  
Environmental Quality Council

**A PETITION TO THE ENVIORNMENTAL )  
QUALITY COUNCIL FOR DESIGNATION )  
OF AN AREA KNOWN AS SAND CREEK )  
AS RARE OR UNCOMMON )**

**Docket No. 09-1102**

**AMENDED MOTION TO CONTINUE  
FOR FAILURE TO GIVE PROPER NOTICE  
TO THE UNITED STATES**

COMES NOW, John Green, General Partner of Mineral Hill, L.P., which are surface and mineral owners of property located in the Sand Creek area files this motion to continue on the grounds that the Wyoming Environmental Quality Council has failed to give proper notice to the United States as required by law.

1. Title 35 U.S.C. §547 provides that each United States attorney, within his district, shall (2) "prosecute or defend, for the Government, all civil actions, suits or proceedings in which the United States is concerned."
2. The Wyoming Environmental Quality Council, which is composed of attorneys, is presumably aware of their obligations under the law to give notice to the local U.S. Attorney.
3. Rule 5.1 of U.S. Title 18A, Constitutional Challenge to a Statute – Notice, Certification and Intervention, requires that when a party files a pleading, written motion, or other paper drawing into question the constitutionality of a federal statute, a notice must be served on the Attorney General of the United States if a federal statute is challenged – either by certified or registered mail or by sending it to an electronic address designated by the attorney general for this purpose. Presumably, the Wyoming Environmental Quality Council is also aware of the notice obligations in this regard.
4. The petition in the above referenced case identifies the parties effected by the petition as the United States Forest Service and the U.S. Department of Interior Bureau of Land Management and alleges the need for the Wyoming Environmental Quality Council to intercede and declare the federal lands as Very Rare and Uncommon under Wyoming state law to protect the federal

lands in light of federal statutes and regulations which are not constitutionally sufficient to properly protect the federal lands. Whether the federal statutes are constitutionally sufficient or not, does not negate the obligation of Wyoming officials to give proper notice to the U.S. Attorney and/or the U.S. Attorney General as required by law.

4. The docket sheet for the above referenced action fails to include any notice to the U.S. Attorney or the U.S. Attorney General as required.

WHEREFORE, it is respectfully requested that the Wyoming Environmental Quality Council stay all proceedings, including the meeting presently scheduled to be held on July 14, 2009, and continue no further until proper notice is given to the legal representatives of the United States as required by law.

Dated: July 10, 2009

Respectfully submitted,

John Green, General Partner  
Mineral Hill, L.P.  
PO Box 33010  
Austin, TX 78764
