Re: Sand Creek Petition—Docket No. 09-1102

Dear Sir or Madam,

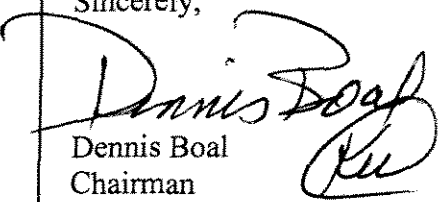

The Biodiversity Conservation Alliance has identified you as a surface owner of lands contiguous to an area commonly known as Sand Creek. The Environmental Quality Council (EQC) is notifying you that the Biodiversity Conservation Alliance has filed a petition asking the Council to designate the area known as Sand Creek located in Crook County, Wyoming as rare or uncommon pursuant to Section 35-11-112 of the Environmental Quality Act.

The EQC has scheduled a meeting on this petition for July 14, 2009 at 9:00 A.M. The meeting will be at the Crook County Courthouse, 308 Cleveland St., Sundance, WY. Anyone wishing to hear the discussion should plan on being at the meeting.

The scheduled meeting will address whether the EQC should move forward with the petition. It is not a hearing on whether the area should be designated. Please see Chapter VII, Section 6(b) of the DEQ Rules of Practice and Procedure. These rules are available through the EQC web site: [www.deq.state.wy.us/eqc](http://www.deq.state.wy.us/eqc) or the Secretary of State's web site: <http://www.soswy.state.wy.us>.

If you have any questions please feel free to call (307) 777-7170. The petition can be viewed at the EQC's docket web site: [http://deq.state.wy.us/eqc/  
docket.htm](http://deq.state.wy.us/eqc/docket.htm) and following docket no. 09-1102 link.

Sincerely,

  
Dennis Boal  
Chairman
