**RE: Chapter 17, Storage Tanks, Docket No. 07-3101**

Dear John;

Today, I visited with Bob Lucht, Solid and Hazardous Waste Division, about the status of Chapter 17, Underground and Above Ground Storage Tanks. The EQC started rulemaking on this package and then I learned there had been changes to the chapter. Bob Lucht told me you had made the decision to send Chapter 17 back to the advisory board for consideration.

I am assuming you will bring Chapter 17 back to us after your in-house work is completed and then we will need to start a new rulemaking process.

Therefore, I am removing the current proposal from our docket. I will wait to hear from you and if you have any questions or concerns, please let me know.

Sincerely,

A handwritten signature in blue ink that reads "Terri Lorenzon".
