Dave Freudenthal
Governor

Harold Kemp
Acting Director

January 9, 2003

Dear Applicant:

Enclosed are copies of spreadsheets that summarize your application and give the Director's funding recommendation for your application. This information was also provided to the State Loan and Investment Board. We have also provided the State Loan and Investment Board with a copy of the Application Summary Form that you provided as part of the application. The State Loan and Investment Board will consider your application along with others requesting funding on:

Thursday, January 23, 2003
beginning at 8:00 a.m.
Room 1299 of the Herschler Building
Cheyenne, Wyoming

To conduct the meeting more efficiently, we have placed applications on one of four lists:

Grant request is equal to or less than 50% of total project cost:

- List 1 Full Funding Recommended
- List 2 No or Partial Funding Recommended

Grant request is over 50% but does not exceed 75% of total project cost:

- List 3 Full Funding Recommended
- List 4 No or Partial Funding Recommended

If the Director has recommended full funding for your application, we have placed the application on the "Full Funding Recommended" list for that specific allocation of funds. We anticipate that the State Loan and Investment Board will approve applications on this list as a group. However, anyone can request that any application be removed from the "Full Funding Recommended" list and that application will be considered separately. If the Director has not recommended full funding for your application, we have placed it on the "Partial or No Funding Recommended" list. The State Loan and Investment Board will consider these applications individually and allow for comments from the applicant and the staff.

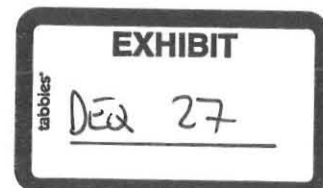

The deadline for submission of applications for consideration at the June 19, 2003 grant and loan meeting is February 20, 2003.

If you have any questions, please feel free to contact me, 777-7309.

Sincerely,

Handwritten signature of Brad Miskimins in black ink.

Cheyenne, WY 82002

Solid Waste Disposal District
Lander, Wyoming DIV.

Dear Mr. Reynolds:

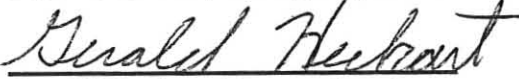

As required by W.S. 9-4-604 (h), please accept this letter as a written review of the mineral royalty grant application that is submitted to you for Fremont County Solid Waste Disposal District. This application requests a grant from Mineral Royalty Funds. A loan from the Clean Water State Revolving Fund Loan will also be requested at a later date for the construction of a Solid Waste Handling and Recycling Facility.

1. *The ability of the special district to fund the project through bonds:*
Not applicable.
2. *Whether the project is adverse to the needs, plans or general welfare of the county:*
No. This project is necessary in order to alleviate a situation that jeopardizes the health and safety of the residents of the county as a whole and the environment/groundwater protection.
3. *Whether the special district has utilized local funding resources:* The District will utilize cash reserves from equipment funds of approximately \$800,000 to purchase trucks, trailers and integrated tool carriers that are required, but not eligible costs under this grant/loan program.
4. *Whether the special district has met county standards:* Yes, the District has met all applicable county and municipal restrictions and standards.

Sincerely,

FREMONT COUNTY ASSOCIATION OF GOVERNMENTS

Don Ackerman, Acting Mayor - Riverton

Gerald Heckert, Mayor - Lander

Tim Isabell, Mayor - Shoshoni

Bob Baker, Mayor - Dubois

Alan Pattison, Mayor - Pavillion

Jake Hamon, Mayor - Hudson

September 13, 2004

Mr. David Finley, Administrator
Wyoming Department of Environmental Quality
Solid and Hazardous Waste Division
122 West 25th Street
Herschler Building, 4W
Cheyenne, Wyoming 82002

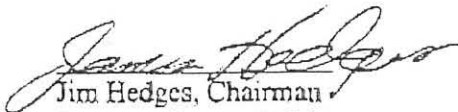

Dear Mr. Finley:

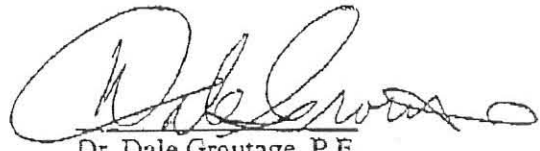

In the course of reviewing the current Wyoming Department of Environmental Quality-Solid and Hazardous Waste Division rules and regulations, several issues have risen. The Fremont County Solid Waste Disposal District is asking for specific quantitative answers to the following:

- 1.) If an isolated confined pocket of groundwater is determined to be present in an area of either new landfill construction or expansion, would that preclude construction/expansion of an unlined landfill? If yes, then what are the restricting limits of the size of the isolate groundwater pocket?
- 2.) If an unexplained water table rise is observed only in one well with no adjacent wells exhibiting a similar rise, does that comprise a global rise in the water table, that is a rising water table in surrounding areas away from the well exhibiting the rise?
- 3.) If seasonal or perched groundwater is impacted, does that constitute a violation of WDEQ/SHWD regulations?

If you have any questions or need additional information, please do not hesitate to contact me. We appreciate your timely response to this matter.

Sincerely,

 Jim Hedges, Chairman
 Fremont County Solid
 Waste Disposal District

 Dr. Dale Groutage, P.E.
 F/C Solid Waste Disposal
 District Board Member
