

SOLID AND HAZARDOUS
WASTE DIVISION

SEP 10 2008

9-4-08

Bob,

I am unable to get time to make the meetings, but would like to comment on the proposed rule changes.

I believe it is unfair + unsafe not to have a licensed operator at EACM facility. we have to have one at our single store, the large chains should have one on at each individual store also.

My second concern is the monthly inspection requirement, this would be physically impossible with our snow load, the tops of my pumps are over a foot under snow for several months.

Thanks for your time,

Bart Milan
